Work From Home (WFH) Policy

Dvara Trust is committed to work-life balance and offers flexible work options to the team members. The purpose of this policy is to outline the policy guidelines and eligibility requirements regarding the WFH policy.

Scope

This policy is applicable to all our employees who prefer working from home.

Eligibility

Employees are allowed to work from home only if their job duties permit it. For example, people who are obliged to come in direct physical contact with customers/clients are not eligible to telecommute under this policy. But, employees who carry out most of their work on a computer can occasionally work off-site.

Policy Elements

Employees work from home or telecommute when they complete their work at a place located outside of our company's premises. They may work from home:

- Full-time
- On certain days
- Every day, dividing their schedule between being present at the office and working from a remote location.

Work from home arrangements can be occasional, temporary or permanent.

Reasons that could demand telecommuting include but are not limited to:

- Parenting
- Bad weather
- Emergencies
- Medical reasons
- Work-life balance
- Attend to an ailing family member

Other reasons for working from home depend on employees and managers' judgement.

General Guidelines

We advise both employees and managers to consider these elements before asking/approving work from home:

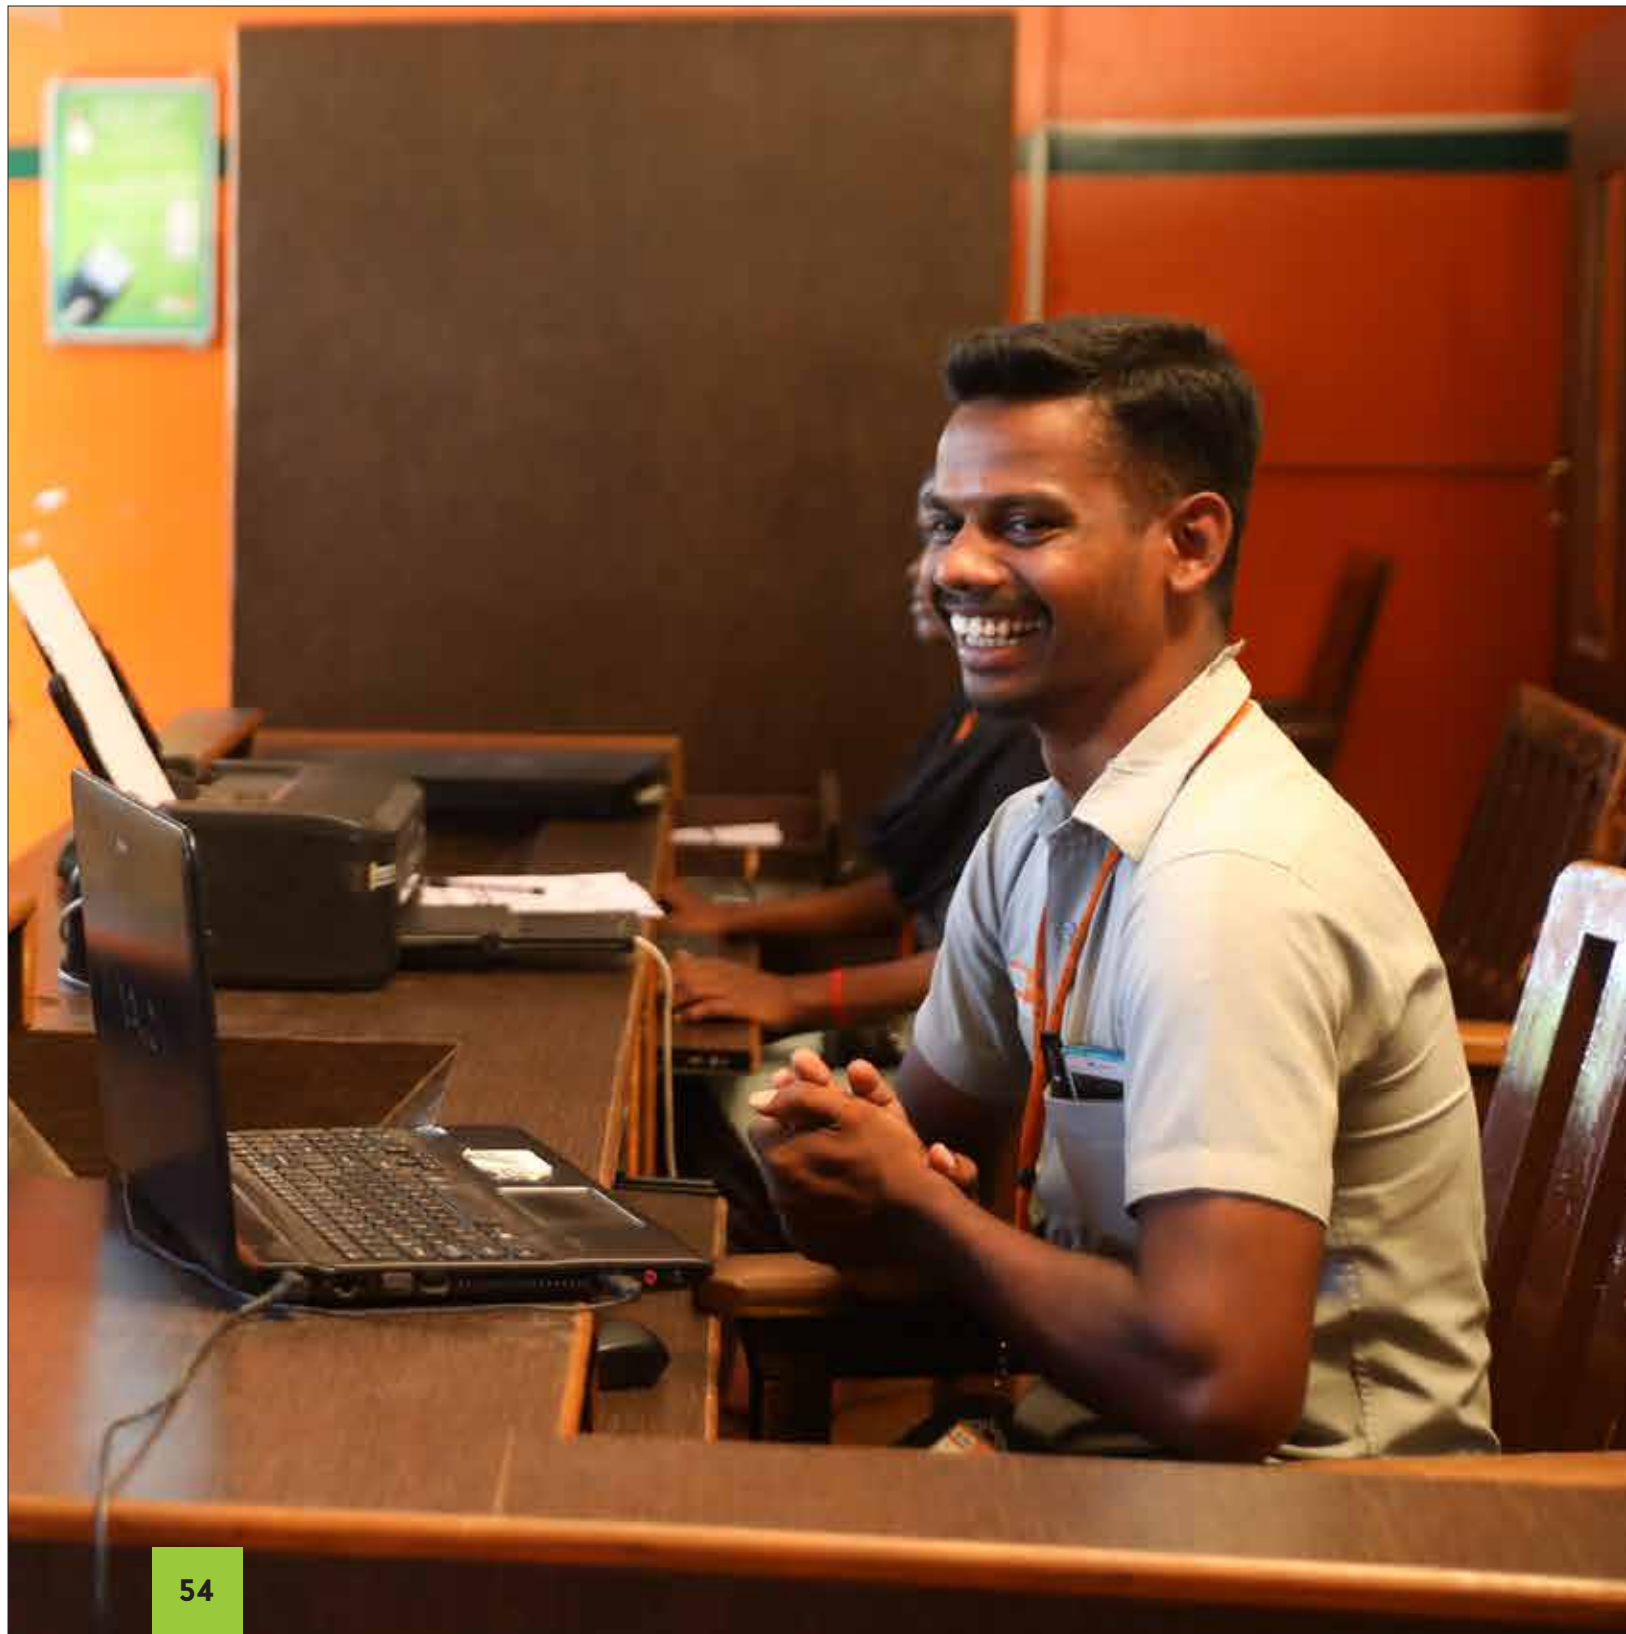

- Is the employee eligible by nature of their job?
- Are there any cybersecurity and data privacy concerns?
- Will collaboration with the employee's team become difficult?
- Do employees have the necessary equipment or software installed at home?
- What are the conditions of employees' home or alternative place of work (noise, internet connection etc.)

Requesting Work From Home Procedure

When employees plan to work from home, this procedure must be followed:

- Employees file a request through email or a Human Resource Management System (HRMS) at least [two days] in advance.
- Their managers must approve their request considering all elements we mentioned above.
- If the work from home arrangement spans for more than a week, managers and team members should meet to discuss details and set specific goals, schedules and deadlines.

Employees who need to work from home for unforeseen reasons (e.g. lockdown, illness or temporary difficult commute) should file their request as soon as possible, so managers can consider and approve it.

Performance Management Systems (PMS)

Performance Management Systems (PMS)

The philosophy behind the Performance Management System (PMS) is that all employees need to know what is expected of him/ her, and that they should be given the opportunity to perform, by being provided the necessary inputs, tools and environment to achieve these results.

Having provided them access to all these processes and tools, it is also important that the employee be given a feedback at regular intervals as to how they are performing and where corrections are needed. It is also necessary, when required, to provide the team member with the required inputs through training, job rotation etc. to perform the assigned task.

The objectives of the Performance Management System Are:

- To evaluate performance against Key Result Areas/ goals set for the year.
- To assess the employee on key behavioral attributes related to, or that may be critical to performance of the job.
- To assist employees in their assessment (own and by their reporting manager) of areas where there can be improvement and / or additional inputs for growth and development.
- To identify the potential in each person for further progress within Dvara Trust.
- To determine the rewards for the performance where it has met predetermined standards.

Performance Management Systems (PMS)
